Especially with exotic woods, prices and availability can change daily, so our price list is more of a general idea of what your custom option would cost. We will do our best to stay within the price on the pricelist. Once we start an order, the price of the custom option will be honored, even if it changed for us.
13. For other guitar related purchases, such as wood, pickups, pedals or for another type of guitar (Acoustic, Archtop ect) please contact us. The order form only covers our models and custom electric guitars.
